Mr. J. R. Moorhead's boys, while rummaging around in the old Phillips building, south of Mr. Moorhead's residence, found two bicycles, one of which had been stolen from one of Dr. Lindsay's boys, while the other awaits an owner.

PRESBYTERIAN MANSE BURNED

At 3:30 this morning the manse, occupied by Dr. Lindsay, pastor of the Presbyterian church, was discovered to be on fire. The firemen responded promptly to the alarm, but when they reached the building on Fort King avenue they found it in a sheet of flames. They battled with the flames for three hours, but owing to the low pressure of water and the progress the flames had made, the building is now a wreck. The fire started in the kitchen, from what cause we have been unable to learn. Most of the furniture was removed from the building. The manse was insured for \$2250, of which Mr. Scott carried \$1125 and Mr. Davis the same amount. We understand, but have not been able to ascertain whether it is true or not, that Dr. Lindsay had no insurance on his household goods. Dr. Lindsay and wife, as it was noted in the Star yesterday evening, left yesterday to attend the presidency at Palatka. The doctor was telegraphed for and is expected to arrive this afternoon.

The firemen are satisfied that while they saved all the adjoining buildings, Dr. Lindsay's chicken yard not even being touched, with its valuable contents, had it not been for the few fire horses the results might have been different. The fire and Dr. Lindsay's misfortune is deeply regretted.

The manager of the city water works insists that the pressure was all right last night, but the excitement of several of the firemen, several of whom were trying to open the hydrant while others were trying to shut it at the same time, caused the trouble. In verification of which he quotes Mr. James R. Carlisle, who is not only an old fireman but knows as much about water pressure as anyone in the city. It is well known that Ocala has the most powerful water pressure of any city in the state.

Foley's Kidney Cure, if taken in time, affords security from all kidney and bladder disease. Sold by the Postoffice Drugstore.

Whitton, a prosperous farmer of the Gaiter section, was in the city yesterday and remarked to a Star man that the Gaiter people desired to meet the county candidates, and expected to get up a picnic for the 25th, the day after the meeting at Dunnellon, and would notify the public through the Star.

Mr. J. R. Powell of Rural, six miles south of Brooksville, came up yesterday to take in the Chambliss stock sale. He was surprised and delighted, and said such an interest should be encouraged. Mr. Powell is a member of the turpentine firm of W. J. Hillman and Co., and was formerly manager of the convict turpentine farm to the west of Levon. He is a very pleasant gentleman to meet.

"I have been subject to sciatic rheumatism for years," says E. H. Waldron, of Wilton Junction, Iowa. "My joints were stiff and gave me much pain and discomfort. My joints would crack when I straightened up. I used Chamberlain's Pain Balm and have been thoroughly cured. Have not had a pain or ache from the old trouble for many months. It is certainly a most wonderful ointment." For sale by all druggists.

Mr. Henry Decker of Vincennes, Ind., who is a partner with Mr. Yates in growing watermelons and cantaloupes east of town, left last week with his family for his home in Indiana. Mr. Decker had the misfortune during the recent floods on his lands along the Wabash, to have two acres of wheat submerged in four feet of water, and to what extent it is damaged remains yet to be seen. He also had this same land seeded to clover just before the flood, which cost him \$8 per bushel, and the probabilities are that this seed has gone with the receding waters. On his way home he stopped over in St. Augustine for a few days.
